**ASX RELEASE**

## **OPEN PIT TARGETS TO BE INCORPORATED INTO ACHMMACH DFS**

**DFS Timetable Extended to Quarter 1, 2014**

**Kasbah Resources Limited (Kasbah, ASX: KAS) and its development partners in the Achmmach Tin Project (Toyota Tsusho Corporation and Nittetsu Mining Co. Ltd) have agreed to a short extension of the timetable for the Definitive Feasibility Study (“DFS”) to incorporate potential open pit opportunities into the mine design and schedule.**

All agreements with Toyota Tsusho Corporation and Nittetsu Mining Co. Ltd have been varied to reflect a DFS Completion Date of no later than 31 March 2014.

Kasbah Managing Director Wayne Bramwell said:

*“The Kasbah Board and our strategic partners have agreed that a short extension to the timetable of the DFS is warranted based on the emergence of two open pit targets at Achmmach.*

*This is another positive development for the project as the cash flow impact of open pit ore in the early years of operations could be significant. As such, this short extension provides the time to evaluate, optimise and incorporate both the Eastern Zone Shallows (EZS) and the recently reported Western Zone Shallows (WZS) opportunities into the mine schedule.”*

For and on behalf of the Board
