## Achmmach ESIA Renewed

Kasbah Resources Limited (**Kasbah** or **Company**) is pleased to announce that the Environmental and Social Impact Assessment (**ESIA**) for its 75% owned Achmmach Tin Project has been renewed for a further five-year period to July 2024.

The Achmmach Tin Project's ESIA was initially granted in December 2014 following lengthy engagement with the government and the local community, with expiry due in December 2019, unless construction commenced prior to then.

The ESIA is a critical permit required to operate and sets out the fundamental environmental and social compliance framework. The renewal further confirms the Company's compliance with Moroccan environmental and regulatory requirements and reaffirms the Moroccan authorities support for the project.

Chief Executive Officer, Mr Evan Spencer, commented:

*"We are pleased with the renewal of the ESIA as it secures the tenure of the mining license and allows us to progress down the path to commence construction in FY2020. Importantly it confirms the Project's continued support from local government bodies and our host community."*
