Transfer of Bou El Jaj Tin Prospect Complete

HIGHLIGHTS

- On 5 December 2011 Kasbah announced that it had signed an agreement to acquire the Bou El Jaj (BLJ) Tin Prospect from private interests in Morocco
- The transfer of the BLJ permits (exploration permit PR 2137803 and PR 1937887) to Kasbah's 100% owned Moroccan subsidiary is now complete
- BLJ extends south southwest from Achmmach and is the southernmost extension of a mineralised corridor that is approximately 2.5 to 3 kilometres wide and nearly 12 kilometres long in strike
- This is a prospective outcropping tin target and tin grades to 17.9% Sn have been defined by Kasbah rock chip sampling
- A detailed work program for BLJ is currently being developed

For and on behalf of the Board,
